I am an enthusiastic and results-driven software developer that specializes in Python with AI, and the React framework. I specialize in building intelligent applications that leverage cutting-edge AI technologies and seamless front-end experiences. With a strong foundation in programming, machine learning, and user interface design, I thrive in developing solutions that address complex problems and deliver impactful results.

EXPERIENCE

Intern Flutter Developer

Putalisadak, Kathmandu

E-Prabidhi Pvt. Ltd.

Jan 2024 - March 2024

- Contributed to the development of a mobile application using Flutter and Dart.
- Designed and implemented custom widgets, ensuring a consistent and user-friendly interface.
- Integrated REST APIs for dynamic data fetching and updates within the app.
- Gained hands-on experience with state management using Provider.
- Assisted in debugging and testing to enhance app performance and reliability.

Jr. Frontend Developer

Kupondole, Lalitpur

Nexus World

March 2024 – May 2025

- Developed and maintained user-friendly web applications using JavaScript.
- Collaborated with designers to implement responsive layouts using CSS, Bootstrap and Tailwind CSS, ensuring cross-browser compatibility.
- Integrated RESTful APIs for seamless data fetching and dynamic content updates, using Postman for API testing and troubleshooting.
- Optimized web applications for maximum speed and scalability.
- Worked with version control tools like Bitbucket and Sourcetree for code collaboration and management.
- Participated in code reviews, improving code quality and implementing best practices.

WORK EXPERIENCE

1. Colleges Nepal

- Role: Flutter Developer
- URL: <https://www.collegesnepal.com/>
- Technologies Used:

Programming Language: Dart

State Management: Provider

UI Components: Material Design, Custom Widgets

Database Integration: Firebase

API Integration: REST API

Other Tools: Flutter Animations, Google Maps Integration, Image Video Integration

2. Nexus World Dashboard

- Role: React Developer
- URL: <https://portalau.nexusim.com/>
- Technologies Used:
 - State Management: React Context API
 - UI Libraries: Reactstrap
 - Form Handling: Data Fetching and API Integration
 - CSS Frameworks: Tailwind CSS, Bootstrap.
 - Document Generation: excel/csv
 - Responsive Design: CSS Media Queries, React Responsive.
 - Icons and Graphics: React Icons, Font Awesome, react-chartjs-2 (for charts).
 - Data Storage: Local Storage, Rest API

Part-Time Cameraman / Photographer / Videographer

Self-Employed / Freelance

[2017 - Present]

- Captured high-quality photographs and videos for events, community functions, and private clients.
- Edited photos and videos using professional editing tools (e.g., Adobe Photoshop, Lightroom, Premiere Pro, After Effect, and many more).
- Collaborated with clients to understand their vision and delivered creative visual content.
- Developed strong skills in visual storytelling, lighting, and post-production.

TECHNICAL SKILLS

- Languages: JavaScript, PHP, HTML5, Python, Java, Flutter, CSS, C, AI, ML
- Frontend Frameworks/Libraries: React.js, Node.js, Tailwind CSS, Bootstrap, Reactstrap
- Databases: MySQL, Firebase
- Technologies & Tools: Linux, Git, REST API Development, Bitbucket, Beautiful Soup, Scrapy
- Data Analysis & Machine Learning: Pandas, Matplotlib, Seaborn, NumPy, TensorFlow, scikit-learn

SKILLS

- Effective communication.
- Continuous learning.
- Strong teamwork and collaboration.
- Adaptable to new technologies and tools.
- Creative thinking to develop innovative solutions.

EDUCATION

+2 in Management

United Academy

Sep 2017 - Sep 2019

Bachelors in computer application (BCA)

United College

Nov 2019 - Dec 2024

Masters in Data Science and AI

Asian Institute of Technology

Aug 2025 - Present

TRAINING/CERTIFICATION

Python with AI

Broadway Infosys

May 2023-Sep 2023

SQL

Transcore, LP

Jun 2021 – Sep 2021
